Supremacía constitucional y bloque de constitucionalidad: el ejercicio de armonización de dos sistemas de derecho en Colombia

Constitutional supremacy and block of constitutionality: the exercise of harmonization of two systems of law in Colombia

*Adrián Alexander Zeballos Cuahtlin**

Fecha de recepción: 28 de febrero de 2017
 Fecha de aceptación: 23 de junio de 2017

RESUMEN

El presente trabajo pretende realizar un acercamiento a la evolución que ha tenido la Constitución hasta afirmarse como norma superior y definir su contenido, pero estricto normas que son extrínsecas a su objeto y que sin embargo hacen parte integral de la Constitución. Este conjunto normativo conforma el bloque de constitucionalidad, bloque sustantivo y a la vez elemento constitucional de otras leyes.

Palabras clave: Constitución; supremacía constitucional; bloque de constitucionalidad; parámetro de constitucionalidad.

ABSTRACT

This paper intends to make an approximation to the evolution that the Constitution has had until affirming itself as the supreme norm, as well as to define its content, since there are norms that are foreign to its text and yet are an integral part of the Constitution. This normative set conforms the block of constitutionality, substantive block and at the same time constitutional parameter of other laws.

Keywords: constitution; constitutional supremacy; constitutionality block; parameter of constitutionality.

Rigidity or you have chronically diminish our vitality and lower our energy. When we are born, the organism is in its state of greatest vitality and fluidity; when we die, rigidity is total, rigor mortis. We cannot avoid the rigidity that comes with age, but we can do it with chronic muscle tensions, resulting from unsolved emotional conflicts. All pressure produces a state of tension it's in the body. In general, tension disappears when pressure is relieved. However, chronic tensions persist even after the pressure has ceased, as this assumes the form of an unconscious physical attitude or a muscle numbness. Such strains disturb emotional health by reducing the energy of the individual, restricting its motility (spontaneous and natural action and movement of the body) and limiting its self-expression. It becomes necessary, therefore, to relieve them, so that the person regains full vitality and emotional well-being. The bioenergy work of the body includes both manipulative procedures and special exercises. The first ones consist of massage, controlled pressure and soft touches to relax the contradictory muscle. The seconds propose to help the person contact his tensions and release them through certain movements. It is important to know that every muscle against it is blocking some movement. These exercises were developed over 20 years of therapeutic work with patients and are made in sessions of therapy, in classes or at home. Those who practice them report a positive effect on their energy, their mood and their work. The authors regularly perform them to promote their own well-being. Wherever we have introduced these exercises – for example, in workshops for professionals – the answer has been enthusiastic and ask usSeded Oiem Rop Oproc Od OirÁ 23arbitv Odavte O OdNatnemua ,edadilativ ad EvaHC-Otnemele o f © ff oá ff¡arbitv a euq á¡á¡, atxe siam oá ff¡serpexe a similar zevlat oviv Etmetnarbitv .oviv Etmetnatort RATSE ED Oá ff ¡¡¡¡¡fidnoc á ff es-erefer, aá\$¡neod ed aicnÁ 9999as Sanepa Acufingis Oá ff ¡fn Etnarbitv Edá 9999fas ,etnarbitv Edá 9999as Amu Arap Ohnimac in edá 9999fas a arab etnarbitv ohnimac muá © ff acitá © ff¡greneob a, Somiv Omoc Edadililom e oá ff ¡¡¡¡¡sarbitv .1 acitá © ff¡greneob ad sesab sa i etrap, .olerp on, Summus: Oluap Oá ff ¡fs .ver .ver .Oá ffserped me oproc o ,a, newl .1 .ol- 9999dneerpus oá ff ¡fv soicaÁÁfneeb so, oproc users Rop Essertit e Odadiuc, ohnirac moc racitarp so es, odutnoc ,adan ravorp á¡¡¡¡frugagesnoc oá ff ¡fn, etnemavittepmoc ratucexe so es; oá ff ¡¡¡¡¡sa aus raziminim ¡av, etnemavislupmoc rezif so es; soicaÁÁfneeb socup á¡¡¡¡fret, etnemacincacem racitarp so á 9999fcoy es .Áarane so á 9999fcoy omoc amrof ad medneped ossi rop, sedadilab ed oá ff ¡fn e, soicaÁÁfexre ed es-start, odutnoc ,aá\$¡nainocco Tua a review and Edadilaluxes a Racifisnetni, AicnÁ 9999arapa a Rarohlem Medlop Má © ¡¡¡mat Seie, Oá ff ¡¡¡¡¡[¡¡¡¡¡PMA) 3; aicnÁ 9999scisnocotua od oá ff ¡¡¡¡¡[¡¡¡¡¡PMA) 4; Oá ff ¡¡¡¡¡[ARIPSER AD OTNEMADNIFORPA) 3; oproc od e Sanrep Sad GnidNuOz) 2; oproc uss Odatse od Otnemua) 1; ed oiem rop á¡¡¡¡frecneoca Ossi, Acilpmi omret Esse euq odut moc á á e á e otnemichnocotua siamicoh a omoc missa, rezarp o ra otnecla ed edadidipac e edadilativ aus etnemavittefingfing ratnemua a á¡¡¡¡fraduja o soicaÁÁfexre seted raluger oá ff ¡¡¡¡¡fucexxe A, Aiparet Me Oá ff ¡fn Uo 9999fov A¡etse, MÁ © ¡¡¡rop .SoicaÁÁfexre SOD OSRUC O Etnarud AICN 9999scisNOC AICNITA EUQ SAMELBORP SO RAHLABART A SAL-¡¡¡¡DUJA ARAP AJ-¡¡¡¡¡fucorp Madiced Aiparet Me Majotse Aiparet Me Majotse Oá ff ¡fn Euq SausoSp Euq Mumoc á % ff ,Janoisiforp aduja Mereuger, Lareg Me, Siauq So, Sodnuforp Sianoicome Sameiborp Oá ff ¡¡¡reloser Oá ff ¡fn Cele, Aiparet a Meutitsbus Oá ff ¡fn SoicaÁÁfexre Jehovah EUQ, Etneimaicini, Razitafne Someruge ,Adnamed Asse A AT SOPSER ASSON A á © ff orvil ETSE. SELED Oá ff ¡¡¡¡¡¡¡¡rksed amu e atcheil amu renenrof arap It is possible to reach this type of health. A healthy body is in constant vibrational state, either awake or sleeping. Watch a child Sleeping and seeing It is light tremors passing through the surface of your body. You can observe small sensations in different parts of the body, especially on the face, on the arms and on the legs. Sometimes we adults also experience these tremors or remorse. A living body is constantly moving. This inherent motility of the living body, which is the basis of its spontaneous activity, results from a state of internal excitation that continuously bursts into the moving surface. When the excitement grows, there is more movement; when it decreases, the body becomes more inert. As the body vibratory state increases in a coordinated manner, pulse waves develop and spread throughout the body. We are familiar with these waves in the heartbeats, which pulsate through the arteries, and in the peristaltic movements of the intestine. But we do not always experience the pulsatory waves in the whole body in a state of total relaxation or in the form of intense sensations. In complete relaxation, breath waves cross the body in each inspiration or expiration. In intense emotional states, sensory waves spread throughout the organism. Similar pulse waves occur in the climax of the sexual act. However, in general we do not allow ourselves to relax fully, breathe deeply or feel intensely. Vibration is due to an energetic load on the body, being analogous it occurs on an electric wire when a current passes through it. The lack of vibration indicates that the excitation current It is or charge is absent or very reduced. We use an analogy: as soon as we start the car, it enters strong vibration, which will decrease until it reaches a normal rhythm. This level of vibration continue It's while he's on the move. IfStop while the car is moving, we will feel as soon as it stopped working by the absence of vibration. The quality of vibration of a car or a human body tells us where they are. When a car shakes or the vibration is violent, we feel that something is wrong. In the body, abrupt vibration indicates that the excitement or load is not freely flowing freely. Just as the rapids of a river denote that stones or other obstacles prevent what, in other circumstances, would be a smooth course, also vibration Current of excitement is flowing through the sneakers or chronically tense. When the tensions are relieved or the reclaim, the vibration becomes more subtle, hardly noticeable in the superfan, and are so f e o experienced as a delicious purr. Porá? There are also conditions in which the body shakes due to an extreme load. For example, we shake with anger or fear, we shake into solutions, we pulse with love; But whatever the emotion, we are fully alive at these times. In the course of bioenergetic work, the body of the person is taken to a state of vibration through the exercises described in this book. The purpose is to maintain vibration in a stained and subtle vibration when the excitement increases or the growing tension. In fact, the body's toleration is increased for the excitement and pleasure. In order to reach this, the ego must be surely anchored in the body, identified with it and without fear of accompanying its involuntary reaction. The result is spontaneous movements and behaviors, coordinated and effective: the quality of the natural grain. During this process, there is a corresponding change in the thought and attitudes of the individual. When vibration cross the body to its fullest, the person feels amu ,odartson omoc, ©Á air 9999Átarbitv edaditiva A, otnematicxe od oEÁÁÁÁslup a ,otatnoc e edadimikorp ed edatnov á ,oEÁÁÁÁitni ad ojpepmal e ,lauxes ojseod on otnemiterred ed oEÁÁÁÁasnes ecod a Á ,oEÁÁÁÁaticxe ad oxulíf odnxeiler oproc olep maull euq oEÁÁÁÁasnes omoc oditnes Á, oipmexe rop ,oir 9999Átsesgid e oir 9999Átalucric, otnemasnep á setnenopnoc socineÁgro sametis sues me e omsinagro od sieti,Áslup oEÁÁÁÁartnoc e oEÁÁÁÁsnaxpe an odibecrep odnes, oproc od oir 9999Átarbitv odatse on es-atnemadnuf oviv otnemlatort ratse od rezarp O, rezarp o arap aassep ad edadicapac a ratnemua od ois 9999Áporp o m 9999Át socin 9999Árc seralucsum soieugolb e sepuÁÁÁnet sad oEÁÁÁÁulossid a e saicn 9999Áugencnoc seavarg ed oEÁÁÁÁarebil a, sodimirper sotliffnoc sod esli,Ána A, oxes on e anaiditoc adiv asson an oEÁÁÁÁaticxe a somarelot siam, somes setnatropmi siam otnauQ ,sazetsirt e sairgela, oEÁÁAsserp e serezap otmelporc rop raicnetrepxe ed zapac, oviv oproc mu ©Á Áiparet ad oiteibpo O, acitu 9999Áparet oEÁÁÁAautis ad odigetorp otetnoc on sodareg samotnis so rasserpexe e ratteca a adajarocne e adaduja ©Á ÁIE ,mamixorpa es euq saicn 9999ÁÁerpexe a sodagil e setneicisnocni lareg me ,soieugolb e sepuÁÁÁibme erroco euq otnemicehnocer o rednetne a adaduja aiparet ad avita etrap A, edadilativ aus acidujerp omoc ,sarvalap sartuo mE .oEÁÁAsserpoxotua aus zuder e sotnemivom sues egnitrser, oEÁÁÁÁaripser aus atimil omoc, oEÁÁÁÁaticxe ed oxulíf ues aioieugolb uo ebini omoc ritnes a sÁÁemoc ale, orvil etsen sotircsed setnenopnoc so odnasU ,oproc ues ed oiem rop amsem ale moc otatnoc me rartne a adavel ©Á Áoossep a ,aleN ,acit©ÁÁgreneob aiparet ad emon o ©Á acit©ÁÁgreneob esli,Ána ,saviv etnemetaidair oEÁÁtse :saviv etnemetarbitv sanepa oEÁÁ oEÁÁn saossep siaT ,osoicary res ed acig 9999Álocisp etnednopserrroc edutita a rebecrep ,laroprocc aÁÁAarg a rebecrep oA ,oEÁÁÁÁa e otnemasnep ed luratan edadirecnis amu a avel otnemasnep e edadinu ed oEÁÁÁÁasnes A ,oEÁÁÁÁaer amsem a mereref setneicap otnematart ,odot mu omoc odargetni e oEÁÁtse otnemivom ed sopit siod ,lev¡ÁÁduas otlua muN ,cte ,ralaf ,radna omoc siat ,setneicisnocimes uo setneicisnoc ,soir,Átnulov sotnemivom sotium ibecer m©ÁÁbmat ,soir,Átnulovni sotnemivom sessed m©ÁÁÁ, Á, rigaer ed edadicapac ad ,otnemitnes sod ,edadililom ad ,oproc od lativ otnemanoicnuf od acig 9999Álotap oEÁÁÁÁÁnimitid a ©Á Á oEÁÁAsserped A, somimirped son odnauq ,oipmexe rop ,ecetnooca ossl ,acig 9999Álotap ©Á A edadililom ad arutamerp adrep a ,odutnoc ,etrom ad edadililomi a rignita ©ÁÁÁÁÁ, Átse siam e siam es-anrot oproc osson ,somreccheivne oa ,etnemlarutaN ,asliup e arbit oviv oproc mu ,air,Átnulovni ©Á Á, edatnov alep men oge olep adalortnoc ©Á Á oEÁÁn edadililom asSE ,onretni otnemanoicnuf olep e lanicoicome oEÁÁÁÁarebil alep ,saeneÁtnopse sepuÁÁÁÁa salep lev¡ÁÁÁnsopser ©Á Á m©ÁÁbmat laiqu a ,omsinagro oa acidÁÁrui edadililom ad
